Hi Hester,

I just created decision 577709 for you on 8329-118. Please bean MRID 51580201 to PC (Cc me) and request the following:

PC reviewer: Please review MRID 51580201 to determine if the study supports the product in the new non-fluorinated container. MRID 51498201 demonstrating the non-fluorinated container does not leach pfas has already been reviewed for this product in DP461864 (see attached). This study was submitted during the PRIA review to register the product, however it was not considered during the PC review. Due to the high visibility of these actions, please consider this study ahead of other non-PRIA amendments.

51498201
